V4 CONNECTS

HUNGARIAN PRESIDENCY 2017/2018 OF THE
VISEGRAD GROUP

Dear Visitor,

The Hungarian section of the annual V4 Bicycle Race will take place on 12 May 2018 between Budapest and Pannonhalma.

Hungary, as the current presidency country of the Visegrad Group, attaches special importance to the race that will be held for the sixth time in 2018, as a highlighted public event related to the Visegrad Group.

I wholeheartedly recommend participating at the various public events accompanying the launching of the race at Várkert Bazár, the central event venue of the Hungarian V4 Presidency.

The V4 Bicycle Race, supported by the International Visegrad Fund, is well in line with the priorities of the Hungarian V4 Presidency. We deem it very important that, in addition to governmental cooperation in representing our common political and economic interests and improving physical connectivity in the region, the citizens of the four countries also experience the sense of togetherness. Sport events provide great opportunities in this respect.

The Visegrad Group has become an effective European alliance of four successful, secure and economically fast growing countries. It is our common goal within the Visegrad Group to encourage new joint initiatives that bring benefits to our citizens as well as to further improve friendly relations among Czechs, Hungarians, Poles and Slovaks. The mission of the V4 Bicycle Race is similar; the event provides a possibility not only to score international ranking points but also to strengthen connections among the participating V4 sportsmen as well as the fans following the race.

Allow me to wish great success to the racers and encourage all spectators to follow the race and participate at the accompanying events at Várkert Bazár.

Dear Cyclists,
Ladies and Gentlemen,
The Visegrad 4 Bicycle Race has already become a permanent event in the calendar of celebrations organized together by the countries of our region. I am very glad that I can extend my honorary patronage over this special event and keep my fingers crossed for the best sportsmen.
I would like to thank the organisers for their efforts and the excellent preparation of the Race. I would especially like to recognise the work of the local communities strongly devoted to the organisation of the whole undertaking. Values such as the development of cooperation, integration of societies of the Visegrad Group countries, as well as learning from and about each other have been, next to the sport competition, the goal of this joint cycling race. I am very glad that this goal has been achieved and that the Visegrad Group has highlighted its presence also in the sports domain.
I wish all cycling teams every success and the best results during the race and all fans of this beautiful sports discipline a pleasant time spent in a family atmosphere. I hope that Visegrad 4 Cycling Race 2018 will be a memorable event and I would like to encourage you already today to participate in the next year's edition of the Race.
Yours sincerely,

MgA. Martin Stropnický
Minister of Foreign Affairs

Ladies and Gentlemen, dear cyclists,
Let me thank the Hungarian Visegrad 4 Presidency for initiating and organizing the 6nd series of the Visegrad Bicycle Race in our countries. Riding a bicycle is not popular just as a sport activity but it appears to be a welcome metaphor for the process of European integration. In a year of a crucial European parliamentarian election is therefore very apt to cycle through our countries which, moreover, commemorate this year 11th anniversary of their accession to the EU.
I welcome the idea of the race as a major common sport and tourist promotion event of Visegrad countries and appreciate the new concept of the race proceeding in four national stages in touristic interesting regions. I gladly accept the possibility to promote some less known places of natural and historical interest in the Visegrad region during the Visegrad Bicycle Race. I am convinced, that the race in all of our four countries will show the real Visegrad spirit and cooperation. Let me wish good luck to all organizational teams and sportsmen!

Ivan Korčok
State Secretary of Foreign Affairs

Republic of Slovakia
Bratislava

Ladies and gentlemen, dear friends and sport fans,
I am really glad that once again this year, me and my distinguished colleagues from the Czech Republic, Hungary and Poland, have become honourable patrons of the Visegrad Bicycle Race.
This event is truly remarkable in many respects. Sport, in general, cultivates our body, spirit and discipline. International sportsmen, similarly to artists, have no need of interpreters. Sport connects people across the globe speaking different languages and unite them in challenging struggles. Final results bring joy to winners and sport fans, but they also teach us how to cope with failures. However, the Visegrad Bicyle Race is not only about individual performance. It provides us with the opportunity to better know each other, support good neighbourly relations and promote the knowledge on our four Visegrad countries. The desire to win is also not negligible. However, I am confident that friendship and mutual respect will be the most defining element of the race.
Let me pay particular tribute to the four cycling associations, thanks to whom this race is being organized already for the sixth time. Their belief in the very idea of Visegrad co-operation and enthusiasm has borne its fruits. The peloton is expected to include cyclists from around the whole world. They will surely become international messengers of the noble idea of Central European co-operation and V4 brand.
Let me wish this year's race much success as well as good fighting spirit, lot of endurance and great fans to the athletes. Sports is simply the best example of how human will and desire can overcome all odds.
I look forward to our meeting on the cycling routes again next year.

Budapest (START TOWN)

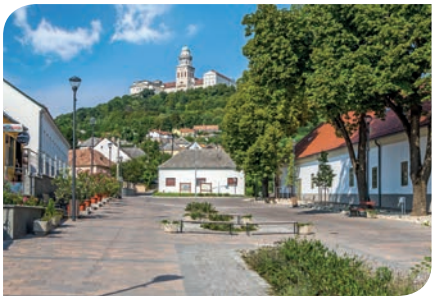
Budapest, the capital of Hungary, is the largest and most exciting metropolis in Central-Eastern Europe. It receives more than four million visitors a year and is one of the ten most popular destinations on the continent.

Budapest is most famous for its unmatched world heritage panorama, however the Hungarian capital has also been referred to as a city of surprises in the last couple of years. The reason – apart from its historical building and natural heritage – being that Budapest offers exciting, wide-ranging cultural, arts, historical and scientific programs for its guests throughout the whole year. Cultural programs from traditional theatrical plays, classical concerts, operas to the most modern music events, performances offer amusement to every age and interest. The open-air concerts, multi-cultural and gastronomic festivals make the city's life more vivid.

Amongst the capital's most popular attractions are undoubtedly its thermal baths, now renowned throughout the world. Unmatched even on a world scale, Budapest can proudly proclaim itself as capital of healing and thermal waters.

The City of Budapest awaits you with its thousand wonders!

Pannonhalma (FINISH TOWN)



Pannonhalma is such a lively small town, where the manifold historic, cultural and natural values form an excellent combination. The developments of the past few years on the field of tourism verify that there are many values and tourist attractions in this place, which were forgotten as the time went by, but now after their renewal they can provide several experience for the local residents and the visitors.
Besides the Benedictine Abbey several special sights are waiting for the visitors, such as – Hefterglass gallery, statue park, several monuments, sites and shrine, abbey farm, granary, synagogue, belvedere.
The town gives home to some of the representatives of different artistic branches – such as actors, potters, painters, glass work artists. The hills around Pannonhalma with their magnificent oak wood provide memorable experience for tourists who are in favor of cycle tours or hiking. The main square of the town, which was inaugurated in the autumn of 2013, the restaurants, the cafes, the wine cellars, the pensions, the guest houses, the camp site, the seasonal festivals and programs all encourage the visitors to stay for a longer period.

A WORLD HERITAGE SITE
The Archabbey of Pannonhalma was founded by Géza of Hungary on the Sacred Hill of Pannónia (Mons Sacer Pannoniae) in 996 and in 1002, his son, Saint Stephen king strengthened the rights and privileges of the Archabbey to become the witness of Hungarian and European culture and the stand of Christianity, humanity and service.
Its thousand-year-old architectural, cultural and social heritage can still teach, command honor and amaze, while its gates are more wide-flug than ever to share the most of its values with the visitors. Pannonhalma means a time travel for most of its visitors, a place which stands the test of time, however the Archabbey, which was recorded as a world heritage site in December 1996, bears witness of novelty, openness and susceptibility.
The buildings of the monastery present the messages of different eras; however their unity defines a united diversity. The artefacts and the cultural heritage are enriched by special a beauty as a still active community of monks utilize the building according to its original purposes.

Visegrad 4 Bicycle Race
Grand Prix Poland

Sobótka (START AND FINISH TOWN)

Sobótka is a town in Lower Silesian Voivodeship, in south-western Poland, about 30 km southwest of Wrocław.

It is located on the northern slope of Mount Ślęża, part of the Central Sudetes mountain range, and is this small region's administrative, cultural and tourist centre.

At first just a market place, Sobótka has been given the city rights in 1399. Today the town has a population of over 6.5 thousand.

The town's history has always been connected with the Mount Ślęża, the solitary forested cone rising to 718m above the surrounding open plain, known as Ślęża Landscape Park. The area has an interesting and varied landscape and its specific microclimate allowed the development of many species of fauna and flora. The air is fresh and water crystal clean.

All this makes Sobótka a popular tourist destination not just for those living in Wroclaw, but also for visitors from other parts of the region and beyond.

There are many tourist paths for the pedestrians and for the cyclists. Good road infrastructure ensures easy access to Sobótka and its surrounding areas.

Sobótka's connection with cycling goes way back. It has long been a popular meeting place for the best polish cyclists and a training ground of many cycling champions of road and track. The strong link of Sobótka with polish cycling lead to the creation of a Cycling Avenue of Fame, which grows every year, with new names being added.

Visegrad 4 Bicycle Race
GP Czech Republic

Valtice (START AND FINISH TOWN)

Valtice is located 265 kilometres south-east of Prague, in South-Moravian Region, in the Czech Republic.

Feldsberg (previous name of the city of Valtice) in the Duchy of Austria was first mentioned in an 1192 deed. Until the end of World War I the town of Feldsberg belonged to Lower Austria, when became a part of Czechoslovakia

The town is known as a centre of wine making in Moravia. Both the National Wine Center and the Wine Salon of the Czech Republic reside in the Valtice Chateau. The annual Valtice Wine Market wine exhibition is held in the chateau riding hall at the beginning of May.

Lednice-Valtice Cultural Landscape belongs to the World Heritage Sites listed in Czech Republic, the garden follies and the conservatory of Lednice Park were listed in the 1998 World Monuments Watch by the World Monuments Fund as well.
